

TSG PowerDoc™ Real Time Risk Management – at the Point of Care

TSG, the leader in ED Risk Management, has combined its proven risk management expertise with the well established ED documentation experience of TSG PowerDoc™ to create a revolutionary New ED Documentation

Template System focused on Patient Safety and Risk Management.

TSG PowerDoc™ combines the best of the paper and electronic worlds: an intelligent medical record brings risk and safety to the bedside; and TSGRSQ™ provides immediate access to a clinical decision support program previously available only through ED Information Systems.

This powerful tool creates opportunities to make proper diagnoses, demonstrate a careful analysis of the appropriate differential diagnosis, and demonstrate compliance with the applicable standard of care. TSG PowerDoc™ is a medical record tool designed to reduce risk and medical errors, and provide the highest quality patient care when you need it; at the point of care.

FEATURES

Risk and safety enhanced

Over 130 unique charts

Real time clinical decision support at the bedside

Computer generated

Easy to use

TSG PowerDoc™

Unique Risk Fortified Format — Incorporates TSG Evidenced Based Clinical Prompting and ACEP Clinical Policy Content to Optimize Risk Management Documentation

TSGRSQ™ (Risk, Safety, and Quality) is an innovative program that provides critical clinical decision support at the point of care. Whether you are using a paper template or electronic health records, **TSGRSQ™** provides key clinical information, procedure support, high-risk alerts, anatomical graphics, and medication information; all evidence based or supported by well-recognized best practice.

- **New Risk Fortified Format – Improves patient care with reduced malpractice claims**

Embedded clinical prompts provide optimal documentation and care of high risk presentations – improves your financial and risk management results

- **Dictation Readability in a Template Format**

Easily accepted by medical staff

- **Highly Customizable**

Easily adapted to meet your ED's specifications

- **Unique Data Input Format Optimizes Documentation**

Fast, comprehensive, easy to use!
